

B1 growth hormone of selected mammals are tabulated below²⁶, using standard single letter notation: (SEQ ID NOS 34-52, respectively in order of appearance)

Please replace the paragraph beginning on page ~~22~~²² at line 1 with the following rewritten paragraph:

B2
A. Synthesis of pentadecapeptide comprising amino acid residues 177-191 of native human growth hormone, designated as hGH (177-191) (Ref No. 9401): (SEQ ID NO: 1)

Examiner note Please replace the paragraphs beginning on page ~~26~~²⁵ at lines 21 and 29 16 with the following rewritten paragraphs, respectively:

B3
B. Synthesis of pentadecapeptide (Ref No. 9404): (SEQ ID NO: 1)

B4
C. Synthesis of the pentadecapeptide (Ref No. 9410): (SEQ ID NO: 1)

Please replace the paragraphs beginning on page 27 at lines 7 and 23 16 with the following rewritten paragraphs, respectively:

B5
D. Synthesis of the pentadecapeptide (Ref No. 9405): (SEQ ID NO: 1)
Leu¹-Arg-Ile-Val-Gln-Cys-Lys-Ser-Val-Glu-Gly-Ser-Cys-Gly-Phe¹⁵
(cyclic disulfide) (SEQ ID NO: 10)

Examiner note Please replace the paragraph beginning on page ~~30~~³⁰ at line ~~40~~⁶ with the following rewritten paragraph:

B6
E. Tyr-Leu-Arg-Ile-Val-Gln-Cys-Arg-Ser-Val-Glu-Gly-Ser-Cys-Gly-Phe (cyclic disulfide) (SEQ ID NO: 19)
